Project Manager:

PROJECT SCOPE:

The proposed project includes realignment of the three-legged approach roads with a dual roundabouts located in the southwestern and northeastern corners of the existing intersection connected by a median. The roundabouts will have two inscribed circles of 110 feet with splitter islands on all of the approaches. Access will be provided to the existing shopping center via the southernmost roundabout. A 12-foot trail will be constructed on the NE quadrant while 5 foot-wide sidewalks will surround both roundabouts in all other areas. Additionally, street lights will be installed around the roundabouts to increase visibility at night. Two 12-foot travel lanes with 2-foot curb and gutter and a 2-foot stamped concrete are included along entire length of the project. Crosswalks will be provided to traverse in all directions.
